Dear Chika,

Greetings, hope you're doing well. I'm pleased to give you all the latest developments here at The Chesler Group since our last newsletter.

ASM Project Completed

We're pleased to announce the completion of our largest renovation project yet. While the \$6,500,000 project was certainly a vast undertaking, the rewards have been equally great. After over a year of demolition and complex renovation, we have restored the headquarters of ASM International to their original historic grandeur.

We're also planning, in conjunction with ASM International, a formal grand opening on Saturday, August 6. If

you would like to attend, please [contact us](#) to arrange an invitation. If you're an aficionado of mid-century modern architecture, you really owe it to yourself to attend and experience the building for yourself.

Historic Warren, Ohio Storefront Underway

Never a group to rest on our laurels, we're well underway in our newest endeavor -- the complete renovation of the Market Block Building, a historic storefront on Courthouse Square in Downtown Warren, Ohio.

Working in conjunction with Dimit Architects in Cleveland and Phillips/Sekanick in Warren, we will transform the late 1800s storefront to become the new headquarters of the [Raymond John Wean Foundation](#). Completion of the project is scheduled for March 2012.

We will have a groundbreaking open house on Monday, July 25 at 10 AM at the Market Block Building located at 147 West Market Street, Courthouse Square in Downtown Warren. We hope you can join us.

CBC Connects with TCG

I recently had the honor of being interviewed by [Cleveland Business Connects](#) for their "In Touch With" section of the July Issue. It turned out to be a fun, informative piece that explains how I got into this crazy historic renovation business all because of a dog and the time difference between Cleveland and Japan. [Check it out for yourself](#) and let me know what you think.

Please reply to this email with your impressions and comments and feel free to forward it to colleagues you feel may find it of interest.

Sincerely,
Michael Chesler
